

# Number Line

## Fractions

$$\frac{1}{4}$$

$$\frac{7}{8}$$

Understand a fraction as a number on the number line; represent fractions on a number line diagram.

Directions

Match the Number Line to the Fraction. Hint: Look at the red line.

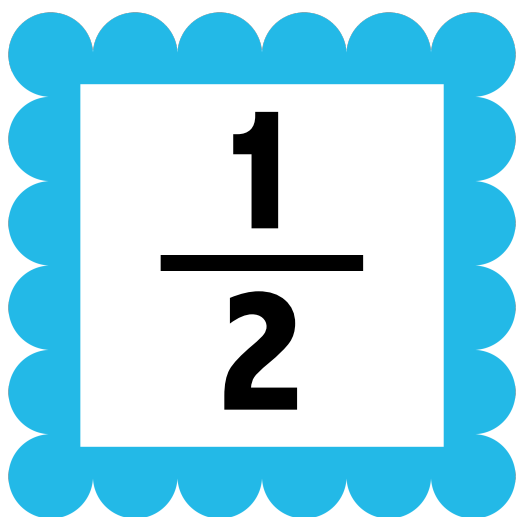

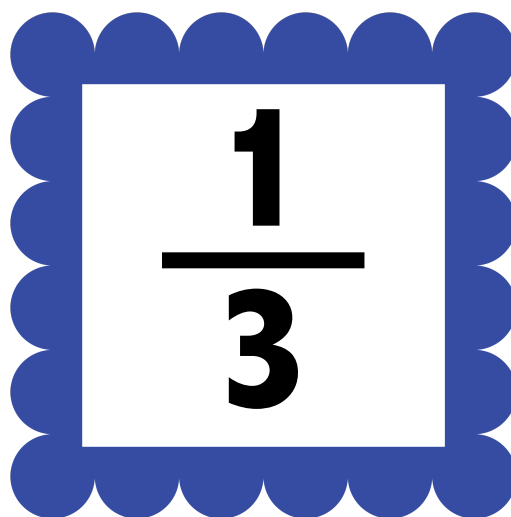

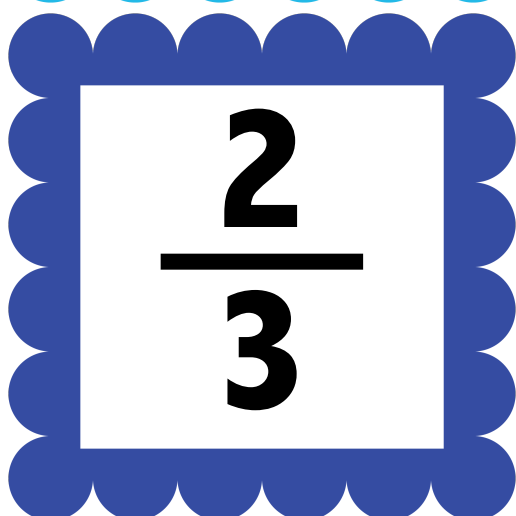

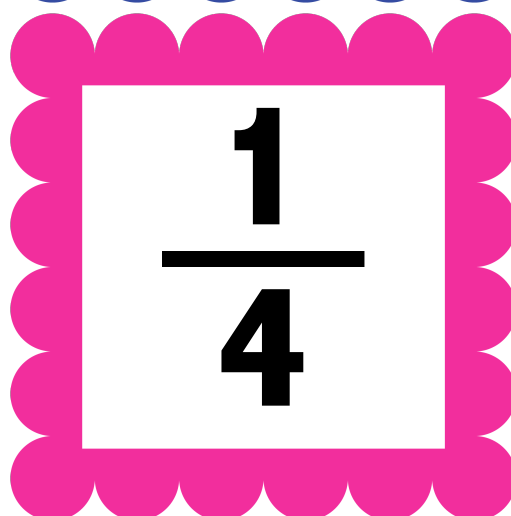

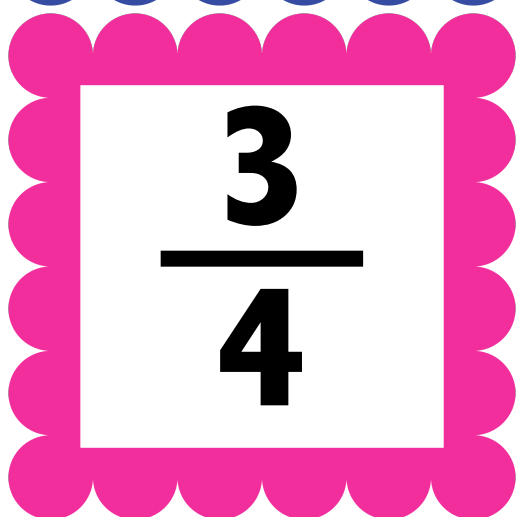

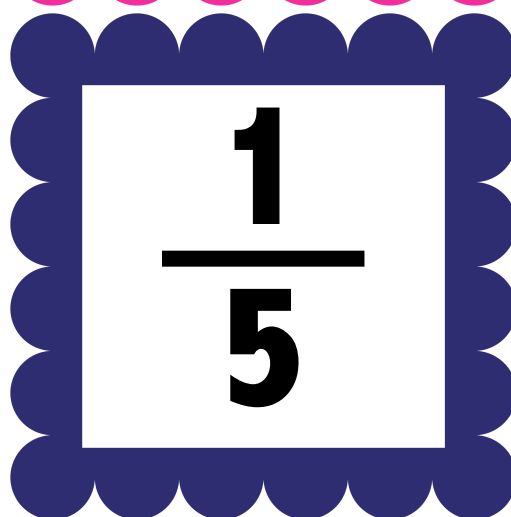

$$\frac{1}{2}$$

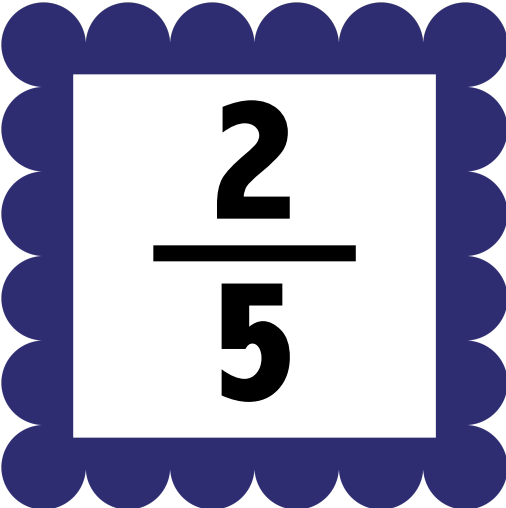

$$\frac{1}{3}$$

$$\frac{2}{3}$$

$$\frac{1}{4}$$

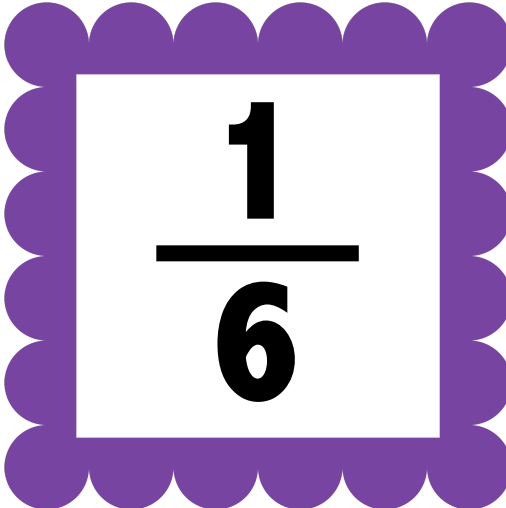

$$\frac{3}{4}$$

$$\frac{1}{5}$$

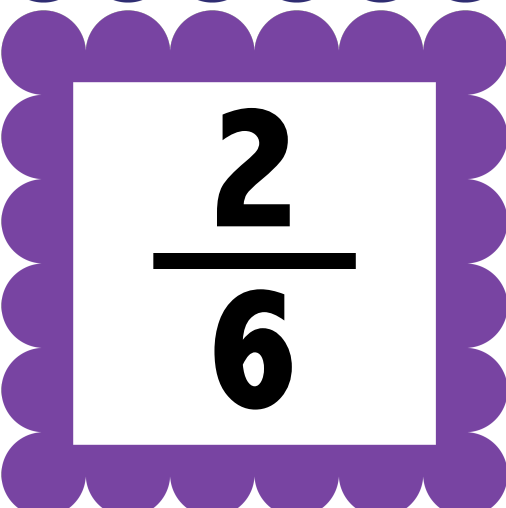

A square card with a dark blue border featuring a scalloped edge. The card has a white center containing the fraction  $\frac{2}{5}$  in bold black text.

$$\frac{2}{5}$$

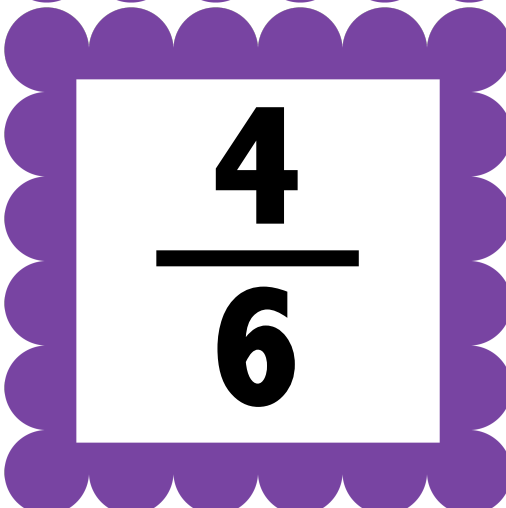

A square card with a purple border featuring a scalloped edge. The card has a white center containing the fraction  $\frac{1}{6}$  in bold black text.

$$\frac{1}{6}$$

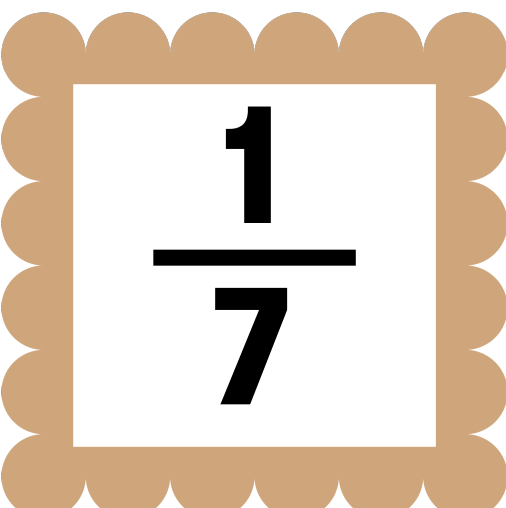

A square card with a purple border featuring a scalloped edge. The card has a white center containing the fraction  $\frac{2}{6}$  in bold black text.

$$\frac{2}{6}$$

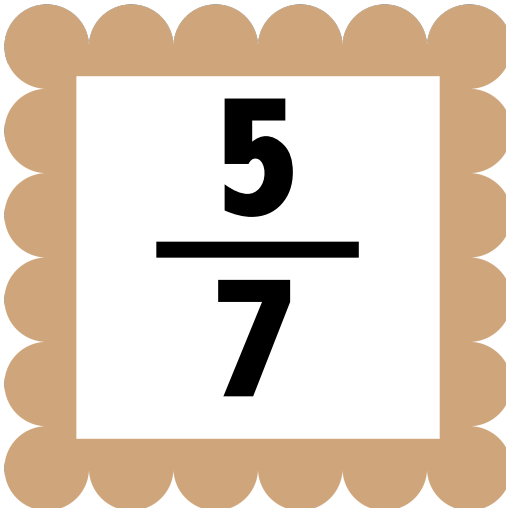

A square card with a purple border featuring a scalloped edge. The card has a white center containing the fraction  $\frac{4}{6}$  in bold black text.

$$\frac{4}{6}$$

A square card with a tan border featuring a scalloped edge. The card has a white center containing the fraction  $\frac{1}{7}$  in bold black text.

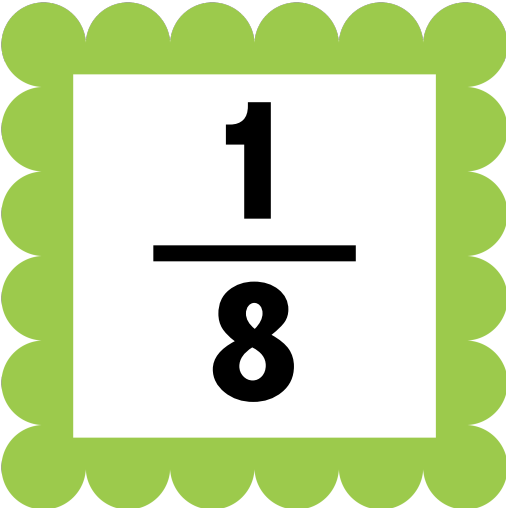

$$\frac{1}{7}$$

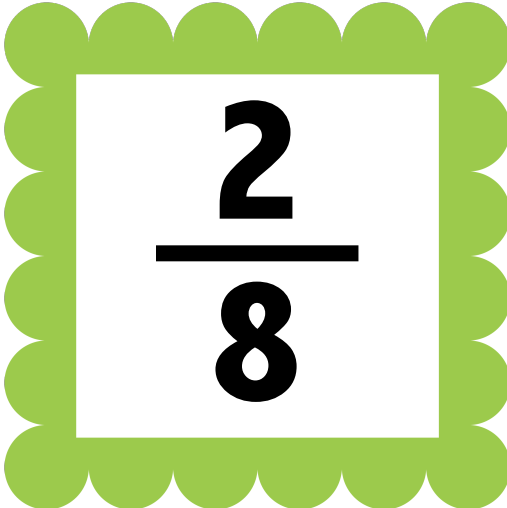

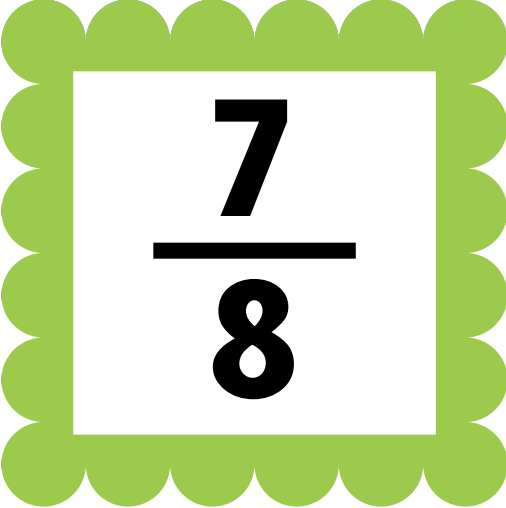

A square card with a tan border featuring a scalloped edge. The card has a white center containing the fraction  $\frac{5}{7}$  in bold black text.

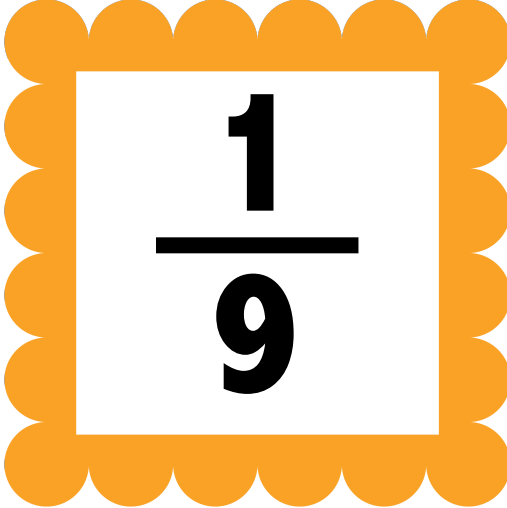

$$\frac{5}{7}$$

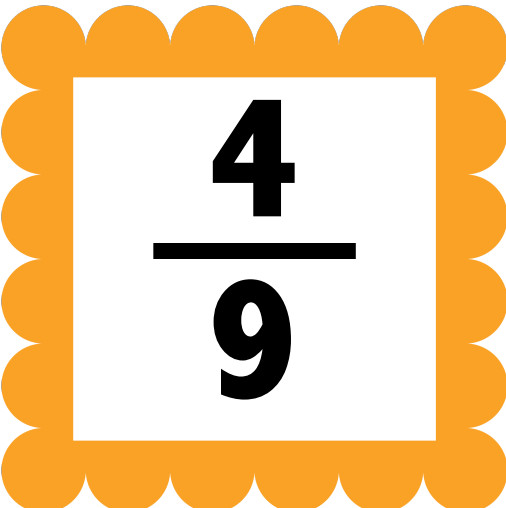

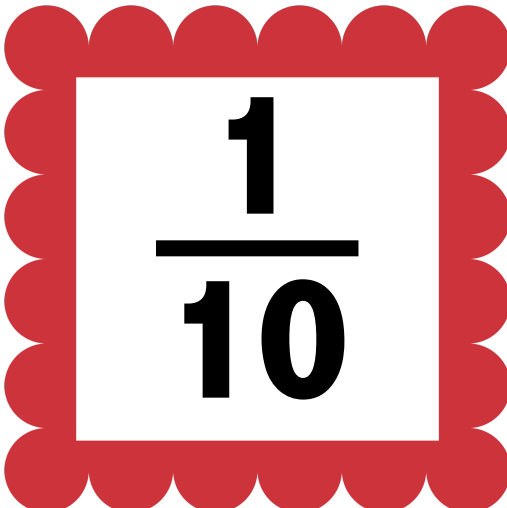

$$\frac{1}{8}$$

$$\frac{2}{8}$$

$$\frac{7}{8}$$

$$\frac{1}{9}$$

$$\frac{4}{9}$$

$$\frac{1}{10}$$
